

Engine Reconditioner

Company Name: J&C Auto Parts and Engines

Location: Redcliffe, QLD, 4020

About Us:

J&C Auto Parts and Engines is a well-established automotive repair and maintenance shop specialising in engine reconditioning since 1966. As one of the last remaining full-service engine rebuilding and mechanical workshops, we pride ourselves on delivering high-quality services to our customers, across all aspects of engine rebuilding and vehicle maintenance. We are looking for a skilled and passionate Engine Reconditioner to join our team.

Position Overview:

As an Engine Reconditioner, you will play a crucial role in restoring and enhancing engines to optimal performance. You will work with a variety of engines, from all makes and models, ensuring they meet safety standards and perform efficiently. If you are a hands-on problem solver with a love for engines, we want to hear from you!

Responsibilities:

Engine Diagnosis and Inspection:

- Conduct thorough inspections of engines to identify issues, wear, and damage.
- Diagnose problems related to engine components, including cylinder bores, pistons, connecting rods, crankshafts and crankshaft journals, cylinder heads and components, and camshafts.
- Engine Rebuilding and Repair:
- Disassemble engines, clean components, and reassemble full engines.
- Perform precision measurements and machine work, including honing and boring cylinder bores.
- Recondition cylinder heads, crankshafts, and connecting rods.

Quality Assurance:

- Ensure all reconditioned engines meet safety and performance standards.
- Conduct rigorous testing and quality checks before engines are installed.
- Documentation:
- Maintain accurate records of work performed, including parts used and labour hours.
- Provide detailed reports to customers and management.

Collaboration:

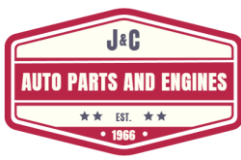

- Work closely with other technicians, mechanics, and service advisors.
- Provide technical expertise and guidance to junior team members.

Qualifications:

Experience:

- Previous experience in engine reconditioning preferred.
- Familiarity with both petrol and diesel engines.
- Proficiency in using engine rebuilding tools and equipment.

Skills:

-
- Strong mechanical aptitude and problem-solving skills.
 - Attention to detail and precision in measurements.
 - Ability to read and interpret technical manuals and diagrams.

Certifications:

- Relevant certifications (e.g., Automotive Engine Reconditioning Certificate) preferred.

Benefits:

- Competitive salary based on experience.
- Ongoing training and professional development opportunities.
- Friendly and supportive work environment.

How to Apply:

Interested candidates should submit their resume and a cover letter detailing their relevant experience to admin@jcautos.com.au. Please include "Engine Reconditioner Application" in the subject line.

Join our team and be part of a passionate community dedicated to keeping engines running smoothly!
